ENVIRONMENTAL WASTE INTERNATIONAL INC. RETAINS ZENERGY COMMUNICATIONS INC.

Environmental Waste International (EWI) (TSX-V: EWS) announces that it has engaged Zenergy Communications to provide investor and public relations services. Zenergy will assume a direct role in the strategic execution and leadership of EWI's overall communications including management of investor relations, public relations and corporate communications activities.

Zenergy has been retained for one year effective upon approval by the TSX Venture Exchange. The contract is automatically renewable unless either party issues written notice at least 60 days prior to expiry. It may be terminated on one month's notice for the first six months and on two month's notice for the balance of the term. Zenergy will receive \$3,500 per month for the first three months and then \$5,000 for each month following. Zenergy will also receive a stock option for 100,000 common shares at \$0.15/share valid for 12 months from the effective date, but can only exercise 20,000 shares after completing each of the 2nd and 3rd months and 30,000 shares after each of the 6th and 9th months of the contract.

About Zenergy Communications Inc.

Founded in 2003 and headquartered in Montreal, Zenergy is a full-service marketing and communications firm specializing in investor relations. Zenergy advises and supports a number of private and publicly traded companies and acts as an extension of their internal communications department. The Zenergy team prides itself on strong client relations and is comprised of specialists in communications, finance, media relations, event planning, creative, digital marketing and interactive design. Zenergy has offices in Montreal and Toronto as well as established strategic alliances with New York based firms.

About Environmental Waste International Inc.

EWI has designed systems for the breakdown and recycling of used tires, for the sterilization and disposal of medical waste, liquid waste and food waste as well as the treatment of several other organic waste streams. EWI continues to work on designs for other processors. Please visit EWI's home page at: www.ewmc.com.

WARNING: The Company relies upon litigation protection for "forward-looking" statements. The TSX Venture Exchange has not reviewed and does not accept responsibility for the adequacy or accuracy of this release.
