All options are exercisable at \$0.05 per common share vesting over three years with an expiry date of July 5, 2028.

### **About Environmental Waste International Inc.**

Environmental Waste International Inc. specializes in eco-friendly systems for the breakdown of organic materials, including tires. The Company has spent over 15 years engineering systems that integrate the EWS patented Reverse Polymerization™ process and proprietary microwave delivery system. EWS's unique microwave technology safely processes and recycles waste tires, while recovering highly valuable commodities, including carbon black, oil and steel. Each unit is designed to be environmentally safe, energy efficient, and economically profitable for the operator. For more information please visit, [www.ewi.ca](http://www.ewi.ca).
