

Consolidated Financial Statements

**Environmental Waste International Inc.**

December 31, 2013 and 2012

Building a better  
working world

# INDEPENDENT AUDITORS' REPORT

To the Shareholders of  
**Environmental Waste International Inc.**

We have audited the accompanying consolidated financial statements of **Environmental Waste International Inc.**, which comprise the consolidated statements of financial position as at December 31, 2013 and 2012 and the consolidated statements of loss and comprehensive loss, changes in shareholders' equity (deficiency) and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

## **Management's responsibility for the consolidated financial statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditors' responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of **Environmental Waste International Inc.** as at December 31, 2013 and 2012 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

**Emphasis of matter**

Without qualifying our opinion, we draw attention to note 3 to the consolidated financial statements which indicates that the Company incurred a net loss of \$3,223,082 during the year ended December 31, 2013 and, as of that date, the Company's current liabilities exceeded its current assets by \$2,859,606. These conditions, along with other matters as set forth in note 3, indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

Toronto, Canada,  
April 25, 2014.

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

## **1. CORPORATE INFORMATION**

Environmental Waste International Inc. ["EWI" or the "Company"] is incorporated under the Ontario Business Corporations Act. The Company's business is the design, development and sale of environmentally sound devices utilizing EWI's patented Reverse Polymerization process and dealing with environmental waste disposal, including the development, advancement, licensing and sale of its technology and related machines throughout the world. The consolidated financial statements of EWI [note 18[a]] were authorized for issue in accordance with a resolution of the Board of Directors on April 25, 2014. The Company's registered office is located at 360 Frankcom Street, Ajax, Ontario, L1S 1R5.

## **2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE**

The consolidated financial statements of EWI have been prepared in accordance with International Financial Reporting Standards ["IFRS"] as issued by the International Accounting Standards Board ["IASB"].

These consolidated financial statements have been prepared on a historical cost basis. The consolidated financial statements are presented in Canadian dollars.

## **3. GOING CONCERN ASSUMPTION**

These consolidated financial statements have been prepared on a basis that assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. These consolidated financial statements do not reflect any adjustments that may be necessary should the Company be unable to continue as a going concern. The Company incurred a net loss of \$3,223,082 during the year ended December 31, 2013 [2012 - \$2,856,910] and, as at that date, has a working capital deficiency of \$2,859,606 [2012 - \$766,222] and a cumulative deficit of \$49,197,042 [2012 - \$45,973,960]. Recurring sources of revenue have not yet proven to be sufficient as the commercialization of the Company's core technology is at an early stage and the Company has not achieved a level of profitability and positive cash flows. The Company needs to obtain additional financing to enable it to continue operations. In the absence of additional financing, the Company is not expected to have sufficient funds to meet its obligations. Management continues to monitor cash needs and is considering various alternatives to raise additional financing [note 21]. There can be no assurances that the Company will be able to secure the necessary financing to enable it to continue as a going concern. The factors noted above indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Company to continue as a going concern. If the going concern basis is not appropriate, material adjustments may be necessary to the carrying amounts and/or classification of assets and liabilities.

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

## **4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at December 31, 2013. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee [i.e., existing rights that give it the current ability to direct the relevant activities of the investee];
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Company's voting rights and potential voting rights.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statements of loss and comprehensive loss from the date that the Company gains control until the date that the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ["OCI"] are attributed to the equity holders of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Company are eliminated in full on consolidation.

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

### **Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements. The following specific recognition criteria must also be met before revenue is recognized:

#### **Construction contracts**

Construction contracts involve production, customization and installation services. Revenue from construction contracts is recognized using the percentage-of-completion method. The degree of completion is determined based on costs incurred as a percentage of total costs anticipated for each contract. When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognized only to the extent of contract costs incurred that are likely to be recoverable. A complete provision is made for losses on contracts in progress when such losses first become known. Revisions in cost and profit estimates, which can be significant, are reflected in the accounting period in which the relevant facts become known.

#### **Rendering services**

Service revenue includes maintenance contracts and extended warranty contracts. Revenue from services rendered is recognized when the stage of completion can be measured reliably.

#### **Interest income**

For all financial instruments measured at amortized cost and interest bearing financial assets, interest income is recorded using the effective interest rate, which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in finance income in the consolidated statements of loss and comprehensive loss.

### **Financial instruments**

#### **[a] Financial assets**

##### **Initial recognition and measurement**

Financial assets within the scope of IAS 39, *Financial Instruments – Recognition and Measurement* ["IAS 39"] are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or

## Environmental Waste International Inc.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

derivatives designated in an effective hedge, as appropriate. The Company determines classification of its financial assets at initial recognition.

All financial assets are recognized initially at fair value plus, in the case of assets not at fair value through profit or loss, directly attributable transaction costs.

The Company's financial assets include cash and cash equivalents, accounts receivable and loan receivable. All of the Company's financial assets are classified as loans and receivables.

### **Subsequent measurement - loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance income in the consolidated statements of loss and comprehensive loss. The losses arising from impairment are recognized in the consolidated statements of loss and comprehensive loss in finance expense.

### **Derecognition**

A financial asset is derecognized when:

- The rights to receive cash flows from the asset have expired.
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement.

### **Impairment of financial assets**

The Company determines at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset [an incurred "loss event"] and that loss event has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

## Environmental Waste International Inc.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

For financial assets carried at amortized cost, the Company first determines whether objective evidence of impairment exists individually for financial assets that are individually significant or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows [excluding future expected credit losses that have not yet been incurred]. The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the consolidated statements of loss and comprehensive loss.

### [b] Financial liabilities

#### **Initial recognition and measurement**

Financial liabilities within the scope of IAS 39 are classified as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, carried at amortized cost. This recognition includes directly attributable transaction costs.

The Company's financial liabilities include accounts payable and accrued liabilities, debt component of convertible loans, mortgages payable and loan payable. All of the Company's financial liabilities are classified as loans and borrowings.

#### **Subsequent measurement - loans and borrowings**

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the consolidated statements of loss and comprehensive loss when the liabilities are derecognized as well as through the effective interest rate method amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance expense in the consolidated statements of loss and comprehensive loss.

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

### **Debt component of convertible loans**

Convertible loans are separated into liability and equity components based on the terms of the contract. On issuance of convertible loans, the fair value of the liability component is determined using a market rate for an equivalent non-convertible loan. This amount is classified as a financial liability measured at amortized cost [net of transaction costs] until it is extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognized and included in shareholders' equity (deficiency). The carrying amount of the conversion option is not remeasured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible loans based on the allocation of proceeds to the liability and equity components when the instruments are initially recognized.

### **Derecognition**

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability and the difference in the respective carrying amounts is recognized in the consolidated statements of loss and comprehensive loss.

### **[c] Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

### **Cash and cash equivalents**

Cash and cash equivalents in the consolidated statements of financial position comprise cash at banks and on hand and short-term deposits with an initial maturity of three months or less.

### **Property and equipment**

Property and equipment are stated at cost, net of accumulated amortization and/or accumulated impairment losses, if any. Such cost includes the cost of replacing component parts of the property and equipment. Repairs and maintenance are charged against income as incurred. Expenditures that extend the estimated life of an asset are capitalized.

## Environmental Waste International Inc.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

Amortization is provided annually on property and equipment, other than land, at rates designed to charge the cost of the assets over their estimated useful lives, as follows:

|                        |                            |
|------------------------|----------------------------|
| Computer equipment     | 30 - 55% declining balance |
| Building               | 4% declining balance       |
| Equipment - gas engine | 15 years straight-line     |
| Office equipment       | 20% declining balance      |
| Fixtures               | 15 years straight-line     |

The assets' residual values, useful lives and methods of amortization are reviewed at each fiscal year end and adjusted prospectively, if appropriate.

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset [calculated as the difference between the net disposal proceeds and the carrying amount of the asset] is included in the consolidated statements of loss and comprehensive loss when the asset is derecognized.

### Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statements of loss and comprehensive loss in the expense category consistent with the function of the intangible assets.

Amortization is provided annually on intangible assets at rates designed to charge the cost of the assets over their estimated useful lives, as follows:

|                        |                        |
|------------------------|------------------------|
| Technology rights      | 10 years straight-line |
| In-process development | 5 years straight-line  |
| Marketing rights       | 5 years straight-line  |

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

Gains or losses arising from the derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statements of loss and comprehensive loss when the asset is derecognized.

### **Research and development costs**

Research costs are expensed as incurred. Development expenditures on an individual project are recognized as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale.
- Its intention to complete and its ability to use or sell the asset.
- How the asset will generate future economic benefits.
- The availability of resources to complete the asset.
- The ability to measure reliably the expenditure during development.

Following initial recognition of the development expenditure as an asset, the cost model is applied, requiring the asset to be carried at cost less accumulated amortization and accumulated impairment losses, if any. Amortization of the asset begins when development is complete and the asset is available for use. The asset is amortized over the period of expected future benefit. Amortization is recorded in the consolidated statements of loss and comprehensive loss in the expense category consistent with the function of the asset. During the period of development, the asset is tested for impairment annually.

### **Impairment of non-financial assets**

The Company determines at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ["CGUs"] fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated for valuation multiples or other available fair value indicators.

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

Impairment losses are recognized in the consolidated statements of loss and comprehensive loss in those expense categories consistent with the function of the impaired asset.

For assets excluding goodwill, an assessment is made at each reporting date of whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If an indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's or CGU's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount nor exceed the carrying amount that would have been determined, net of amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statements of loss and comprehensive loss.

### **Provisions**

Provisions are recognized when the Company has a present obligation [legal or constructive] as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statements of loss and comprehensive loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance expense.

### **Share-based payment transactions**

#### **Stock options**

Employees [including senior executives] of the Company receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments [equity-settled transactions].

The cost of equity-settled transactions is recognized, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The consolidated statements of loss and comprehensive loss expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

recognized in operating expenses. No expense is recognized for awards that do not ultimately vest.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it vested on the date of recognition and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the entity or the employee are not met. However, if a new award is substituted for the cancelled award and designated as replacement awards on the date of grant, the cancelled and new awards are treated as if they were a modification of the original awards, as described in the previous paragraph. All cancellations of equity-settled transaction awards are treated equally.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted loss per share.

### **Warrants**

The Company issues warrants as part of brokered and non-brokered private placement offerings for common shares or as part of other compensation. Warrants are measured at fair value at the date of the offering and accounted for as a separate component of shareholders' equity (deficiency). When the warrants are exercised, the proceeds received together with the related amount allocated as a separate component of shareholders' equity (deficiency) are allocated to capital stock. If the warrants expire unexercised, the related amount separately allocated to shareholders' equity (deficiency) is allocated to contributed surplus.

### **Share issue costs**

Direct costs associated with an issue of capital stock or warrants are deducted from the related proceeds at the time of issue.

### **Leases**

Leases are classified as either finance or operating leases. Leases that transfer substantially all of the benefits and inherent risks of ownership of property to the Company are accounted for as finance leases. At the time a finance lease is entered into, an asset is recorded together with its related long-term obligation to reflect the acquisition and financing. Equipment recorded under finance leases is amortized on the same basis as described above. Operating lease payments are

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

recognized as an operating expense in the consolidated statements of loss and comprehensive loss on a straight-line basis over the lease term.

### **Investment tax credits ["ITCs"] and government grants**

Refundable ITCs are accounted for as a reduction in the cost of the related asset or expense where there is reasonable assurance that such credits will be realized. Government grants are recognized when there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is deducted from expenses. When the grant relates to an asset, it is deducted from the cost of the related asset. If a grant becomes repayable, the inception-to-date impact of the assistance previously recognized in income is reversed immediately in the period that the assistance becomes repayable.

### **Foreign currency translation**

The Company's consolidated financial statements are presented in Canadian dollars, which is also the Company's functional currency. Monetary assets and liabilities denominated in foreign currencies are converted to Canadian dollars at the appropriate rates of exchange prevailing at the consolidated statement of financial position dates while other assets and liabilities are converted at the rates of exchange applicable at the dates acquired or incurred. Revenue and expenses are translated into Canadian dollars at rates of exchange applicable during the periods in which they were earned or expensed. All gains and losses are included in the consolidated statements of loss and comprehensive loss as they arise.

### **Taxes**

#### **Current income tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amounts are those that are enacted or substantively enacted at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognized directly in equity is recognized in equity and not in the consolidated statements of loss and comprehensive loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### **Deferred tax**

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

## Environmental Waste International Inc.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction, either in other comprehensive loss or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, would be recognized subsequently if new information about facts and circumstances changed. The adjustment would either be treated as a reduction to goodwill [as long as it does not exceed goodwill] if it is incurred during the measurement period, or in profit or loss.

### Sales tax

Revenue, expenses and assets are recognized net of the amount of sales tax. The net amount of sales tax recoverable from or payable to the taxation authority is included as part of receivables or payables in the consolidated statements of financial position.

## 5. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

### New and amended standards and interpretations

The Company applied, for the first time, certain standards and amendments. These include IFRS 10, *Consolidated Financial Statements*, IFRS 11, *Joint Arrangements*, IFRS 12, *Disclosure of Interests in Other Entities*, IFRS 13, *Fair Value Measurement*, IAS 19, *Employee Benefits (Revised 2011)* and amendments to IAS 1, *Presentation of Financial Statements*.

### IFRS 10, *Consolidated Financial Statements*

The Company adopted IFRS 10 in the current year. IFRS 10 requires an entity to consolidate an investee when it is exposed, or has rights, to variable returns from its involvement with the

## Environmental Waste International Inc.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

investee and has the ability to affect those returns through its power over the investee. IFRS 10 supersedes SIC 12, *Consolidations - Special Purpose Entities* and replaces parts of IAS 27, *Consolidated and Separate Financial Statements*.

For all financial years up to December 31, 2012, Environmental Waste International Limited Partnership ["EWILP"] was considered to be a special purpose entity and the Company consolidated EWILP, accounting for the net assets of EWILP as non-controlling interests. At the date of initial application of IFRS 10 [January 1, 2012], the Company assessed that it controls EWILP based on the factors explained in note 6 below. The transition did not have any impact on the opening balances as at January 1, 2012 or comparative information for the year ended December 31, 2012.

### **IFRS 11, Joint Arrangements**

IFRS 11 requires a venturer to classify its interest in a joint arrangement as a joint operation or a joint venture. The standard eliminates the use of the proportionate consolidation method to account for joint ventures. Joint ventures are accounted for using the equity method of accounting while for a joint operation, the venturer will recognize its share of the assets, liabilities, revenue and expenses of the joint operation. IFRS 11 supersedes SIC 13, *Jointly Controlled Entities - Non-Monetary Contributions by Venturers* and IAS 31, *Joint Ventures*.

The transition was applied retrospectively as required by IFRS 11 and did not have any impact on the opening balances as at January 1, 2012 or comparative information for the year ended December 31, 2012.

### **IFRS 12, Disclosure of Interests in Other Entities**

IFRS 12 sets out the requirements for disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. The requirements in IFRS 12 are more comprehensive than the previously existing disclosure requirements for subsidiaries. IFRS 12 replaces the previous disclosure requirements included in IAS 27, *Consolidated and Separate Financial Statements*, IAS 28, *Investment in Associates* and IAS 31, *Joint Ventures*. While the Company has subsidiaries with material non-controlling interests, there are no unconsolidated structured entities. IFRS 12 disclosures are provided in note 6.

### **IFRS 13, Fair Value Measurement**

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS. IFRS 13 defines fair value as an exit price. IFRS 13 also requires additional disclosures.

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

Application of IFRS 13 has not materially impacted the fair value measurements of the Company. Additional disclosures, where required, are provided in the individual notes relating to the assets and liabilities whose fair values were determined. Fair value hierarchy is provided in note 19.

### ***IAS 19, Employee Benefits (Revised 2011)***

The IASB made a number of amendments to IAS 19, none of which apply to the Company as the Company does not have any defined benefit pension plans.

### ***IAS 1, Clarification of the Requirement for Comparative Information (Amendment)***

These amendments clarify the difference between voluntary additional comparative information and the minimum required comparative information. An entity must include comparative information in the related notes to the financial statements when it voluntarily provides comparative information beyond the minimum required comparative period. The amendments clarify that the opening statement of financial position [as at January 1, 2012 in the case of the Company], presented as a result of retrospective restatement or reclassification of items in financial statements does not have to be accompanied by comparative information in the related notes. As a result, the Company has not included comparative information in respect of the opening statement of financial position as at January 1, 2012. The amendments affect presentation only and have no impact on the Company's financial position or performance.

### ***IAS 27, Separate Financial Statements***

As a consequence of the new IFRS 10 and IFRS 12, what remains of IAS 27 has been renamed IAS 27, *Separate Financial Statements* and is limited to accounting for subsidiaries, jointly controlled entities and associates in separate financial statements. The Company does not present separate financial statements.

### ***IAS 28, Investments in Associates and Joint Ventures***

As a consequence of the new IFRS 11 and IFRS 12, IAS 28 has been renamed IAS 28, *Investments in Associates and Joint Ventures* and describes the application of the equity method to investments in joint ventures in addition to associates. The Company does not have any investments in associates or joint ventures.

## **6. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the Company's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and the disclosure of contingent assets and contingent liabilities at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods. The key assumptions concerning the future and other key sources of

## Environmental Waste International Inc.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next fiscal year are described below. The Company based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

The following are the critical judgments that have been made in applying the Company's accounting policies that have the most significant effect on the amounts in the consolidated financial statements:

### **[a] Leases**

The Company has entered into a commercial property lease for its corporate headquarters. The Company has determined, based on an evaluation of the terms and conditions of the arrangement, that the arrangement is an operating lease.

### **[b] Consolidation of a structured entity**

During fiscal 2007, EWILP, a limited partnership, was formed to hold the Company's intellectual property and to license certain intellectual property back to the Company by way of a license agreement. As EWILP was consolidated shortly after the transfer of intellectual property from the Company to EWILP, the measurement of the intellectual property was at book value. The Company and EWILP also entered into a management services agreement where the Company was contracted to manage the remaining affairs of EWILP, including the intellectual property not licensed back to the Company through the license agreement. Amounts due from EWILP for management fees, interest and principal on notes are recorded on a cash basis as the Company does not have reasonable assurance as to the collectability. EWILP has the right, but not the obligation, to re-acquire all assigned rights to the patents, proprietary software and system design portfolio through the purchase of all outstanding LP Units. This option can be exercised from January 10, 2010 through to November 1, 2017 by issuing up to \$7,000,000 in EWILP stock at its then fair market value, based on the 10-day average trading price, to be not less than \$0.50 per share. Based on the contractual terms of the agreements in place, the Company assessed that the voting rights in EWILP are not the dominant factor in deciding who controls the entity. Therefore, the Company concluded that EWILP is a structured entity under IFRS 10 and that it controls EWILP with 100% non-controlling interests, and therefore EWILP is consolidated in these consolidated financial statements.

## Environmental Waste International Inc.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

The following are the estimates and assumptions that have been made in applying the Company's accounting policies that have the most significant effect on the amounts in the consolidated financial statements:

### **[a] Impairment of non-financial assets**

Impairment exists when the carrying value of an asset or CGU exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. These calculations are based on available data, other observable inputs and projections of cash flows, all of which are subject to estimates and assumptions. Recoverable amounts are also sensitive to assumptions about the future usefulness of in-process development and the related marketing rights. At the year end, management concluded that none of the Company's non-financial assets were impaired.

### **[b] Income taxes**

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Because the Company has a history of losses, it has not recognized the value of any deferred tax assets in its consolidated statements of financial position.

### **[c] Share-based payment transactions**

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date on which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires the determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 14.

### **[d] Development costs**

Development costs are capitalized in accordance with the accounting policy in note 4. In determining the amounts to be capitalized, management makes assumptions regarding the expected future cash generation of the project, discount rates to be applied and the expected period of benefits. After assessing all available facts and circumstances, management has determined that no development costs meet the recognition criteria to date.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

### **7. STANDARDS ISSUED BUT NOT YET EFFECTIVE**

**IFRS 9, *Financial Instrument - Classification and Measurement***

IFRS 9, as issued in 2010, reflects the first phase of the IASB's work on the replacement of IAS 39, *Financial Instruments: Recognition and Measurement* and applies to the classification and measurement of financial assets and financial liabilities as defined in IAS 39. In subsequent phases, the IASB is addressing impairment of financial assets. The adoption of the first phase of IFRS 9 will have an effect on the classification and measurement of an entity's financial assets, but will not have an impact on the classification and measurements of financial liabilities. In November 2013, IFRS 9 was amended to include new requirements for hedge accounting and the effective date and transition provisions were amended to remove the mandatory effective date of IFRS 9. Entities may still choose to apply IFRS 9 immediately, but are not required to do so. The Company has not yet begun the process of evaluating the impact of this standard on its consolidated financial statements, and will do so in conjunction with the other phases, when the final standard including all phases is issued.

**IAS 32, *Financial Instruments: Presentation***

IAS 32, *Financial Instruments: Presentation*, was amended in 2011 and provides additional guidance when applying the offsetting requirements and clarifies the meaning of "currently has a legally enforceable right of set-off" and that some gross settlement systems may be considered equivalent to net settlement. The amendments are effective for annual periods beginning on or after January 1, 2014. Earlier application is permitted. The Company does not expect that this amendment will result in a material impact to the consolidated financial statements.

**IFRIC 21, *Levies***

IFRIC 21 is an interpretation of IAS 37. The interpretation clarifies that an entity recognizes a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. IFRIC 21 is effective for annual periods beginning on or after January 1, 2014. Earlier application is permitted. The Company is in the process of assessing the impact of this interpretation on its consolidated financial statements.

There is one main research and development project: the TR900 tire recycling prototype. To date, management has determined that the related development costs that are not eligible for capitalization have been expensed and are recognized in operating, labour and manufacturing expenses. A total of \$348,870 [2012 - \$227,578] was recognized in operating, labour and manufacturing expenses related to development costs.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

#### 12. PROVISIONS

|  | Amount<br>\$          |
|--|-----------------------|
| <b>Balance, December 31, 2011 and 2012</b> | 294,758               |
| Net amounts reversed during the year       | <u>(39,758)</u>       |
| <b>Balance, December 31, 2013</b>          | <b><u>255,000</u></b> |

The provision balance consists of an accrual of one year's annual salary to former senior management of the Company. The Company was party to a claim made by former senior management whose employment was terminated on March 1, 2013, who is seeking four years severance pay in the amount of \$1,020,000 [note 19[b]]. Management believes that this claim for 48 months of pay is inflated and without merit and has provided for one year's salary of \$255,000, as the Company believes the likelihood of payout of this amount is probable.

In 2012, the provision of \$294,758 consisted of an accrual for retroactive salary to the same senior management. As at December 31, 2013, the Company has provided for one year's annual salary of \$255,000 as described above and believes that, based on the facts and circumstances as at December 31, 2013, the amount of \$294,758 is no longer due and that the \$255,000 provision encompasses the entire estimated amount owing to former senior management.

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

#### 13. LOANS AND BORROWINGS

[a] Debt component of convertible loans consists of the following:

|   | December 31,<br>2013 | December 31,<br>2012 |
|---|----------------------|----------------------|
|   | \$                   | \$                   |
| Fixed rate convertible loans due to relative of former director, with interest at 10% per annum, repayable on demand, convertible for common shares at the rate of \$0.35 per share | <b>301,000</b>       | 301,000              |
| Fixed rate convertible loans due to former directors, with interest at 10% per annum, repayable on demand, convertible for common shares at the rate of \$0.25 per share            | <b>112,000</b>       | 112,000              |
| Fixed rate convertible loans due to directors of the Company, with interest at 10% per annum, repayable on demand, convertible for common shares at the rate of \$0.25 per share.   | <b>84,000</b>        | 84,000               |
|   | <b>497,000</b>       | 497,000              |
| Less current portion  | <b>497,000</b>       | 497,000              |
|   | <u>—</u>             | <u>—</u>             |

During fiscal 2010, the Company borrowed a total amount of \$497,000 from a relative of the president of the Company and from five directors of the Company by way of convertible loans. The Company bifurcated the equity component from the financial liability component. The value of the financial liability component was determined to be \$433,180. As a result, an amount of \$63,820 was added to shareholders' equity at that time. A balance of \$301,000 was repayable on April 30, 2012 and the remaining \$196,000 was repayable on April 30, 2013.

Subsequent to December 31, 2013, the Company received conditional approval to issue 798,000 common share purchase warrants to holders of these convertible loans. The debt holders agreed to extend the maturity of the debt until April 30, 2014 and relinquish the convertible feature of the debt in consideration for the issuance of the warrants. Each warrant entitles the holder to purchase one common share of the Company at an exercise price of \$0.20 on or before April 30, 2015 [note 21].

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

[b] Loan payable consists of the following:

|  | <b>December 31,<br/>2013</b> | <b>December 31,<br/>2012</b> |
|--|------------------------------|------------------------------|
|  | \$                           | \$                           |
| Fixed rate, non-revolving term loan from the Northern Ontario Heritage Fund Corporation ["NOHFC"], with interest at 4% per annum compounded monthly, repayable on demand | <b>2,000,000</b>             | 1,981,535                    |
| Less current portion   | <b>2,000,000</b>             | 246,042                      |
|  | <u>—</u>                     | <u>1,735,493</u>             |

Payments on the loan have not commenced in April 2013 as specified in the loan agreement. The Company has been in negotiations with the NOHFC to amend the terms of the loan including deferring interest payments. The loan is presented as current on the consolidated statement of financial position as at December 31, 2013 as it is in default.

The loan is collateralized by a general security agreement covering all of the assets of Ellsin Environmental Ltd., a subsidiary of the Company ["Ellsin"] except real property and an assignment of all risks and fire insurance on the subject properties.

[c] Mortgages payable consist of the following:

|   | <b>2013</b>    | <b>2012</b> |
|---|----------------|-------------|
|   | \$             | \$          |
| Fixed rate first mortgage, ten-year amortization period, with interest at 6% per annum, calculated monthly, repayable by August 1, 2020 | <b>113,772</b> | 127,252     |
| Fixed rate second mortgage, eight-year amortization period, with interest at 12% per annum, repayable in full on April 15, 2015         | <b>735,000</b> | 735,000     |
|   | <b>848,772</b> | 862,252     |
| Less current portion  | <b>14,316</b>  | 13,480      |
|   | <b>834,456</b> | 848,772     |

The collateral for the above mortgages is as follows:

[i] First mortgage

A fixed and floating charge on the business assets of Ellsin by way of a General Security Agreement subordinate to the NOHFC, covering all assets other than real property.

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

[ii] Second mortgage

Second charge on the property, subordinate to the first charge of \$113,772 of Community Development Corporation of Sault Ste. Marie.

[iii] Principal repayments over the next five years and thereafter are as follows:

|                     | \$             |
|---------------------|----------------|
| 2014                | 14,316         |
| 2015                | 750,198        |
| 2016                | 16,122         |
| 2017                | 17,130         |
| 2018 and thereafter | 51,006         |
|                     | <u>848,772</u> |

#### 14. SHARE CAPITAL AND RESERVES

The Company has placed a stop-trade order on 560,000 of the issued and outstanding shares for shares to be returned to the Company.

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

<sup>[1]</sup> On January 30, 2012, the Company closed a private placement for 8,000,000 Units with gross proceeds of \$2,000,000, less agent's fees of nil. Each Unit consists of one common share and 0.375 of a share purchase warrant. A whole share purchase warrant allows for the purchase of one additional common share of EWI at a price of \$0.50 per share through to January 30, 2014. All shares issued in the private placement were subject to a hold period that expired on May 30, 2012.

<sup>[2]</sup> On March 14, 2013, the Company closed a private placement for 4,425,000 Units with gross proceeds of \$885,000, less agent's fees of nil. Each Unit consists of one common share and 0.50 of a share purchase warrant. A whole share purchase warrant allows for the purchase of one additional common share of EWI at a price of \$0.35 per share through to March 14, 2015. All shares issued in the private placement were subject to a hold period that expired on July 15, 2013.

On August 9, 2013, the Company closed a private placement for 3,600,000 Units with gross proceeds of \$360,000, less agent's fees of nil. Each Unit consists of one common share and 0.50 of a share purchase warrant. A whole share purchase warrant allows for the purchase of one additional common share of EWI at a price of \$0.175 per share through to August 9, 2015. All shares issued in the private placement were subject to a holding period that expired on December 9, 2013.

On October 17, 2013, the Company closed a private placement for 5,206,666 Units with gross proceeds of \$624,800, less agent's fees of \$21,037. Each Unit consists of one common share and 0.50 of a share purchase warrant. A whole share purchase warrant allows for the purchase of one additional common share of EWI at a price of \$0.21 per share through to October 17, 2015. All shares issued in the private placement were subject to a hold period that expired on February 17, 2014.

<sup>[3]</sup> During the year, a shareholder who was formerly involved in the business activities of the Company several years ago cancelled 1,000,000 shares. These shares had restricted trading provisions, and in return, he was issued 965,000 shares with more favorable terms. The new terms include the ability to trade a fixed number of shares at specific dates over the years 2013 to 2017.

#### Share-based payment plans

The Board of Directors has established a stock option plan under which options to purchase shares are granted to directors, employees, officers and consultants of the Company. The number of options and exercise price thereof is set by the Board of Directors at the time of grant, provided that the exercise price shall not be less than the market price of the common shares on the day immediately preceding the date of grant of the options, on the stock exchange on which such shares are then traded. All the options issued to date vest over a period between six months and three years and generally expire five years from the date of grant.

On June 16, 2011, at the Annual General and Special Shareholders' meeting, the shareholders approved the resolution to increase the number of common shares available for issue from 7,500,000 to 8,700,000 under the plan, representing less than 10% of the total number of shares in issue. Previously, the Board of Directors also approved the addition of a six-month vesting period on all new options issued under the plan after June 27, 2007.

**Environmental Waste International Inc.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

The following options to purchase shares were outstanding on December 31, 2013 and 2012:

|                                   | 2013                   |                                       | 2012                   |                                       |

| <b>Balance, end of year</b>                         | <b>3,975,352</b> | 3,091,483  |

#### Equity component of convertible loans

|   | 2013<br>\$    | 2012<br>\$ |
|---|---------------|------------|
| <b>Balance, beginning and end of year</b> | <b>63,820</b> | 63,820     |

#### Per share amounts

For the year ended December 31, 2013, the weighted average number of shares outstanding was 108,505,632 [2012 - 101,473,989]. As at December 31, 2013, the Company had 6,835,000 [2012 - 6,560,000] stock options, 9,615,833 warrants [exercisable for 9,615,833 shares] [2012 - 5,500,000 warrants [exercisable for 5,500,000 common shares]] and \$497,000 of convertible debt [exercisable for 1,644,000 common shares] [2012 - \$497,000 of convertible debt [exercisable for 1,644,000 common shares]] that were outstanding and anti-dilutive and therefore were excluded from the computation of diluted loss per share.

#### 15. GOVERNMENT ASSISTANCE

The Company has no outstanding claims for federal scientific research and experimental development tax credits ["SR&ED tax credits"] for the years 2004 through 2012 inclusive. The tax credits will be recorded in the period when reasonable assurance of their realization exists. The Company has recognized \$130,192 [2012 - \$871,594] as a recovery of expenses during the year for claims for which the tax credits have been realized.

These SR&ED tax credits have been recorded as a reduction of expenses in the period of receipt.

During the year, the Company also received government grants from a program supporting small and medium-sized enterprises in Canada undertaking technology innovation. The Company

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

recognized \$173,793 in 2013 [2012 - \$20,102] as a recovery of operating, labour and manufacturing expenses as the grant relates to expense items, there are no unfulfilled conditions or contingencies attached to these grants and there is reasonable assurance that the grants will be received. As at December 31, 2013, the accounts receivable balance contains \$80,218 [December 31, 2012 - nil] relating to this government assistance.

#### 16. INCOME TAXES

Income tax expense differs from the amount that would result from applying the Canadian federal and provincial income tax rates to loss before income taxes. The significant differences are as follows:

|  | 2013<br>\$       | 2012<br>\$ |
|--|------------------|------------|
| Combined Canadian statutory rates                    | <b>26.50%</b>    | 26.50%     |
| Recovery at combined statutory rates                 | <b>(854,117)</b> | (757,081)  |
| Losses and other temporary differences not benefited | <b>799,185</b>   | 591,225    |
| Stock-based compensation                             | <b>53,700</b>    | 74,648     |
| Non-controlling interest                             | —                | 20,204     |
| Effect of change in income tax rates                 | —                | 68,512     |
| Other  | <b>1,232</b>     | 2,492      |
| <b>Income tax expense</b>                            | <b>—</b>         | <b>—</b>   |

The difference between the effective rate of 26.5% as at December 31, 2013 [2012 - 26.50%] and the actual rate of nil as at December 31, 2013 [2012 - nil] is attributable to the fact that no deferred tax assets have been recorded for available loss carryforwards and other deductible temporary differences as their ultimate utilization is not more likely than not.

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred income tax assets are calculated and, if realization is not considered likely, any unused losses and other temporary differences not expected to be realized are provided for.

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

The significant components of deferred tax assets and liabilities are as follows:

|  | <b>December 31,<br/>2013</b> | <b>December 31,<br/>2012</b> |
|--|------------------------------|------------------------------|
|  | \$                           | \$                           |
| <b>Deferred tax assets</b>                           |                              |                              |
| SR&ED expenditures                                   | —                            | —                            |
| Unused tax losses carryforwards                      | <b>3,618,555</b>             | 2,978,133                    |
| Investment tax credits                               | <b>1,210,613</b>             | 980,972                      |

#### 17. FINANCIAL INSTRUMENTS

##### [a] Fair value information

The fair values of cash and cash equivalents, accounts receivable, loan receivable and accounts payable and accrued liabilities approximate their carrying values due to the short-term maturities of these instruments.

The fair values of loans and borrowings are as follows:

|                   | <b>December 31,<br/>2013</b> | <b>December 31,<br/>2012</b> |
|-------------------|------------------------------|------------------------------|
|                   | \$                           | \$                           |
| Convertible loans | <b>497,000</b>               | 497,000                      |
| Mortgages payable | <b>741,191</b>               | 684,191                      |
| Loan payable      | <b>2,000,000</b>             | 1,993,496                    |
|                   | <u><b>3,238,191</b></u>      | <u>3,174,687</u>             |

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

The fair values of the loans and borrowings are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. These fair value measurements use other observable inputs such as interest rates and are considered to be 'Level 2' fair value measurements in the fair value hierarchy.

### **[b] Financial risk management objectives and policies**

The Company's principal financial liabilities comprise accounts payable and accrued liabilities and various loans and borrowings. The main purpose of these financial liabilities is to finance the Company's operations. The Company's accounts receivable arise from its operations.

The Company is exposed to credit risk and liquidity risk.

#### **Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract leading to a financial loss. The Company is exposed to credit risk from its operating activities [primarily for trade accounts receivable] and from its financing activities, including deposits with banks and financial institutions. Customer credit risk is managed subject to the Company's established policies, procedures and controls relating to customer credit risk management. The requirement for an impairment is analyzed at each reporting date on an individual basis. The maximum exposure to credit risk at the reporting date is the carrying value of trade accounts receivable, loans receivable and cash and cash equivalents.

#### **Liquidity risk**

Liquidity risk is the risk that the Company will not meet its obligations under its various loans and borrowings. The Company is exposed to liquidity risk from its financing activities, primarily for its various loans and borrowings and accounts payable and accrued liabilities. The Company monitors its risk to a shortage of funds regularly. The Company manages liquidity risk through the management of its capital structure and financial leverage as outlined below.

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments, including expected interest payments:

| As at December 31, 2013                                       | Less than<br>1 year<br>\$ | 2 - 3 years<br>\$ | 4 - 5<br>years<br>\$ | Greater than<br>5 years<br>\$ | Total<br>\$      |
|---|---------------------------|-------------------|----------------------|-------------------------------|------------------|
| Accounts payable and<br>accrued liabilities and<br>provisions | 641,803                   | —                 | —                    | —                             | 641,803          |

#### [c] Capital management

The Company's objectives when managing its capital are:

- [i] to maintain a flexible capital structure that optimizes the cost of capital at acceptable risk while providing an appropriate return to its shareholders;
- [ii] to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business;
- [iii] to safeguard the Company's ability to obtain financing should the need arise; and
- [iv] to maintain financial flexibility in order to have access to capital in the event of future acquisitions and to improve current and new research and development for new technologies.

The Company manages the following as capital:

|   | December 31,<br>2013<br>\$ | December 31,<br>2012<br>\$ |
|---|----------------------------|----------------------------|
| Interest-bearing loans and borrowings   | 3,345,772                  | 3,340,787                  |
| Trade payables and other and provisions | 641,803                    | 711,766                    |
| Less cash and cash equivalents          | (130,044)                  | (673,578)                  |
| Net debt                                | 3,857,531                  | 3,378,975                  |
| Shareholders' equity (deficiency)       | (697,560)                  | 411,521                    |
| <b>Total capital</b>                    | <b>3,159,971</b>           | <b>3,790,496</b>           |

## **Environmental Waste International Inc.**

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

The Company manages its capital structure and makes adjustments to it in accordance with the objectives stated above, as well as responds to changes in economic conditions and the risk characteristics of the underlying assets. The Company monitors the return on capital, which is defined as total shareholders' equity. There were no changes in the Company's approach to capital management during the year ended December 31, 2013. The Company is not subject to externally imposed capital requirements.

### **18. RELATED PARTY DISCLOSURES**

#### **[a] Subsidiaries and ultimate parent**

not the obligation, to subscribe to the Company's shares at a fixed price for a specified period of time. The amount recorded in stock-based compensation expense during the year relating to these transactions is nil [2012 - \$76,000].

#### 19. COMMITMENTS AND CONTINGENCIES

##### [a] Commitments

The Company is committed under a long-term lease for premises which expires on August 31, 2017.

Future approximate minimum lease payments for the ensuing five years excluding the estimated tenant's share of operating expenses and realty taxes required under leases for the rental of premises are as follows:

|      | \$     |
|------|--------|
| 2014 | 85,624 |
| 2015 | 85,624 |
| 2016 | 85,624 |
| 2017 | 57,082 |

##### [b] Contingencies

Under its by-laws, the Company indemnifies its directors/officers, former directors/officers and individuals who have acted at the Company's request to be a director/officer of an entity in which the Company is a shareholder, to the extent permitted by law, against any and all charges, costs, expenses, amounts paid in settlement and damages incurred by the directors and officers as a result of any lawsuit or any judicial, administrative or investigative proceeding in which the directors and officers are sued as a result of their service. Indemnification claims will be subject to any statutory or other legal limitation period. There are no indemnification claims known to the Company at this time. The Company has purchased directors' and officers' liability insurance. No amount has been accrued in these consolidated financial statements with respect to any indemnifications.

## Environmental Waste International Inc.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2013 and 2012

During the ordinary course of business activities, the Company may be party to claims and may be contingently liable for litigation. Management believes that adequate provisions have been made in the accounts where required. Although it is not possible to estimate the extent of potential costs and losses, if any, management believes that the ultimate resolution of such contingencies will not have a material adverse effect on the consolidated financial position of the Company.

During the year, the former president and CEO whose employment was terminated on March 1, 2013 commenced an action against the Company wherein he is seeking four years of severance pay in the amount of \$1,020,000. Management believes that the claim for 48 months is without merit and has provided for one year's salary in the amount of \$255,000 [note 12] as the Company believes the likelihood of payout of this amount is probable.

#### 20. SEGMENT INFORMATION

The Company is organized into one operating segment. Management monitors the operating results of the Company on this basis.

##### Geographic information

##### Revenue from external customers

# **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2013 and 2012

### **21. EVENTS AFTER THE REPORTING PERIOD**

On January 14, 2014, the Company received conditional approval from the TSX Venture Exchange ["TSXV"] to amend the terms of the 3,000,000 common share purchase warrants that were issued on January 31, 2012. Each warrant entitled the holder to acquire one common share of the Company at \$0.50 for a period of two years. The amendment will result in 2,900,000 of the warrants being cancelled with the remaining 100,000 warrants being amended such that the exercise price will be reduced to \$0.21 and the expiry date will be extended to January 30, 2016. Should the closing price of the Company's shares be \$0.25 or higher for ten consecutive trading days, the expiry of the warrants will be accelerated to the 30<sup>th</sup> day following such occurrence.

On January 31, 2014, the Company concluded a private placement for 4,583,333 Units with gross proceeds of \$550,000 following approval by the TSXV. Each Unit consists of one common share and 0.50 of a share purchase warrant. A whole share purchase warrant allows for the purchase of one additional common share of EWI at a price of \$0.21 per share through to January 31, 2016. The shares and share purchase warrants are subject to a TSXV four-month hold period that expires on May 31, 2014. The proceeds of the offering were received on January 31, 2014.

On March 10, 2014, the Company received conditional approval to issue 798,000 common share purchase warrants to holders of previously issued convertible loans in the aggregate amount of \$497,000. A balance of \$301,000 was repayable on April 30, 2012 and the remaining \$196,000 was repayable on April 30, 2013. The debt holders agreed to extend the maturity date of the loans to April 30, 2014 and relinquish the convertible feature of the loans in consideration for the issuance of the warrants. Each warrant entitles the holder the purchase of one common share of the Company at an exercise price of \$0.20 on or before April 30, 2015.
